

All-in-one Solar Streetlight

5-100W full power range
ventilation power cavity design
quick connect waterproof wiring distribution
low power operating temperature
160Lm/W
TUV CE Compliant

Smart City Controls

Operation mode and time control, voice control, light control, internet control, wireless control and digital management.

We combine the best energy saving components of solar panels, led's and battery. With the help of the smart controller and PIR sensor, this light produces superior brightness with low energy, long lifespan and maintenance free operation.

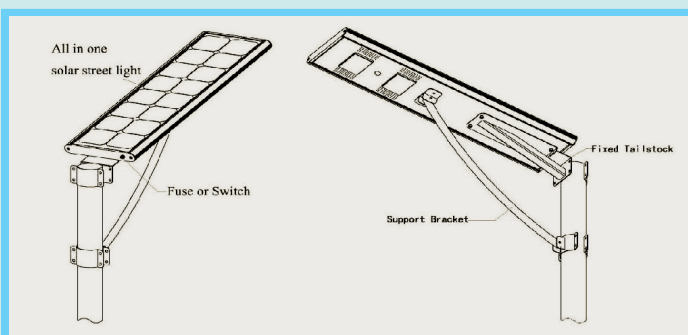

Heat Resistant

Lithium Battery

Smart Controls

Next Generation Heat Guard

All-in-one Solar Led Street Light uses the most innovative, high efficiency, long lifespan, reliable ventilation power cavity design, and low power operating temperature to ensure long life.
